CODE JAM

EVENT DESCRIPTION

Code-Jam is a premier coding contest of BITS Pilani Hyderabad Campus conducted every year at ATMOS. Free to code in any of a long list of languages, teams of 2 will be majorly judged in mathematics and understanding and implementation of algorithms. There are two rounds that aim at determining the best coders present at ATMOS. For both the rounds contestants will not be allowed the use of internet but they can carry at most one booklet (25 pages) for reference. Both the rounds will be held on the same day.

ROUNDS

PRELIMS: On-site round. Teams registered will compete in a 2 hours contest and will compete with all the others teams.

FINAL ROUND: Top 25 teams from the previous round will be selected for the final round which will be a 3 hour contest. The selected teams will have to decide the top 3 who will receive hefty cash prizes and the immense reverence associated with it.
